Hi Samantha, I just wanted to ask you about the path you think our team should take to resolve whether to allow a bit of extra time (probably about 2 weeks) in the schedule so we can include this new study. Ravi suggests sending this information to the Repro WG and CC: you and Vince. My instincts tell me go to management with this decision (I was planning to address this email to Vince and CC: you, Gina, and Ravi). Thoughts?

I think your notes are very well written (not longwinded at all) except that I don't see anything that comments on the quality of the study. If you can add that please do.

These results appear to be important enough that my suggestion is we ask the Repro WG for advice and copy Vince and Samantha.

Hi Ravi, I know you wanted me to try to characterize the new BaP study and the issue in a paragraph, but I wasn't able. Hopefully my notes are not too longwinded and are clear enough that Vince can skim them and advise us on a reasonable course of action.

Let me know if you think this is adequate, and I will send it along to Vince (and CC: Samantha).
